FOR YOUR BATHROOM

## contents

It's the stand-out fixtures that determine the style of a bathroom; the basin, the vanity, the toilet suite, the bath or spa. Finding the right balance between stunning appearance and sustainable performance is not always easy, unless your choice involves the name Caroma.

Australia's leading bathroom brand, Caroma can help you create your perfect bathroom.

# toilet suites

Minimalist, contemporary or classic, Caroma has a wide range of toilet suite designs and styles to complement your needs. Featuring the latest operating technology to deliver the highest performance, Caroma toilet suites flush efficiently and fill quietly.

## INVISIBLE BY CHOICE

The new collection of Invisi™ Series II toilet suites offer a comprehensive range of styles to suit all bathrooms. The stunning wall hung range of Invisi™ Series II suites offer maximum space saving combined with the latest European inspired styling. The wall faced range sit flush to the floor making care and cleaning easier whilst offering an integrated streamlined look.

### CUBE INVISI™ SERIES II WALL HUNG SUITE

- Australian designed

## water saving technology

Most Caroma toilet suites feature the award-winning Smartflush® technology, enabling the lowest toilet flush rate and therefore delivering the greatest water savings available.

### PROVEN WATER SAVINGS

Saves up to 35,000 litres of water per household per year\*

### PROVEN RELIABILITY

The world leader in dual flush technology

### PROVEN AWARD WINNING TECHNOLOGY

Industry recognised as the benchmark in toilet suite innovation

Smartflush® toilet suites carry a WELS 4 star rating, using a 4.5/3 litre dual flush system.

WELS 3 star rated suites use a 6/3 litre dual flush system.

\*Compared to 11L single flush toilet suite

INVISI™ SERIES II BLANK ACCESS PANEL

# wall faced & close coupled suites

Wall faced toilet suites sit flush against the wall which means the vitreous china encloses the gap behind the toilet. This improves the appearance, conceals the plumbing, makes cleaning easier and provides greater installation flexibility.

Close coupled toilet suites are more traditionally styled and are better suited to minor bathroom upgrades or where the water connection cannot be moved.

# basins

## STRIKING STYLE AND SUPERIOR FUNCTION

Basin selection is about combining function and style and goes a long way in setting the tone of the bathroom. Whether you are looking for minimalist design, geometric style to make a bold statement or simply a classic complement to the bathroom, Caroma has a basin to cater for every style and functional requirement.

## above counter & inset basins

Above counter basins are a popular modern design option. They offer a distinctive look and can serve as a decorative piece within the bathroom space. Inset basins are partially concealed within the benchtop. They offer a more understated feel allowing you to draw attention to your tapware or bench top selection.

- 500mm x 430mm

\* When installed in compliance with AS1428.1

# bathware

## WITH STYLE AND LONGEVITY

If you are looking for a bath, spa or shower bath, Caroma has a range of contemporary and classic styles to suit any bathroom. Designed with careful attention to comfort, many offer extra depth, length or width as well as sculptured support. Caroma offers highly durable premium steel baths or contemporary styled acrylic baths. Simply make your Caroma bathware choice, then lie back and relax...

### SPA OPTIONS

Use the guide below to choose the right spa options.

#### HYDROJET (HYDRO)

The Hydrojets deliver a balanced flow of aerated water into the bath. By simply rotating the jets, the massage can be adjusted from soothing to vigorous. A standard pump is fitted with the system. A heat pump option is available to maintain water temperature

#### AIRSTREAM DELUXE (AERO)

Australia's most advanced spa system channels pre-warmed low pressure air into the water through 12-16 jets. The Airstream touchpad controls the on-off function, as well as the level of massage and oscillating function. After the bath, an electronic purge cycle fully drains the jets for optimum hygiene

#### COMBINATION (COMBO)

By combining the Airstream and Hydrojet, the systems can operate independently or together. When the low pressure, pre-warmed air and jets of aerated water are operating simultaneously, it is the ultimate spa experience

# steel baths and spas

Steel is the premium choice in bathware. Highly durable and long lasting, steel baths and spas are scratch and stain resistant and able to stand up to modern non-abrasive chemicals.

STARLETT BATH (1745mm & 1850mm)

Technical drawings of five different above-counter basins, showing top and side views with dimensions in millimeters.

- COSMO ABOVE COUNTER BASIN:** Top view shows a circular basin with a diameter of Ø440. Side view shows a height of 70 mm and a base width of 185 mm.
- LIANO ABOVE COUNTER BASIN:** Top view shows a rectangular basin with a width of 420 mm and a depth of 470 mm. Side view shows a height of 135 mm and a base width of 170 mm.
- LEDA VASQUE INSET BASIN:** Top view shows a circular basin with a diameter of Ø430. Side view shows a height of 75 mm.
- LEDA VASQUE ABOVE COUNTER BASIN:** Top view shows a circular basin with a diameter of Ø430. Side view shows a height of 156 mm.
- GEO ABOVE COUNTER BASIN:** Top view shows a circular basin with a diameter of Ø400. Side view shows a height of 125 mm and a base width of 146 mm.

Technical drawings of five vanity basins, showing top, side, and front views with dimensions in millimeters.

- LIANO VANITY BASIN:**
  - Top view: 415 mm (width) x 415 mm (depth).
  - Side view: 135 mm (height) x 170 mm (width).
- CARAVELLE 600 VANITY BASIN:**
  - Top view: 600 mm (width) x 445 mm (depth).
  - Side view: 170 mm (height) x 190 mm (width).
- CONCORDE 500 VANITY BASIN:**
  - Top view: 500 mm (width) x 425 mm (depth).
  - Side view: 170 mm (height) x 210 mm (width).
- CAMEO VANITY BASIN:**
  - Top view: 540 mm (width) x 420 mm (depth).
  - Side view: 185 mm (height) x 205 mm (width).
- CENTRO VANITY BASIN:**
  - Top view: 565 mm (width) x 385 mm (depth).
  - Side view: 198 mm (width).

Technical drawings of four under-counter basins, showing top, side, and front views with dimensions in millimeters (mm).

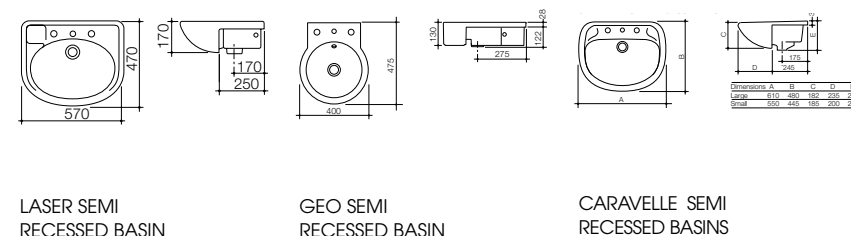

- CUBE 500 UNDER COUNTER BASIN:**
  - Top view: 528 mm (width) x 348 mm (depth).
  - Side view: 172 mm (height) x 174 mm (width).
- COSMO UNDER COUNTER BASIN:**
  - Top view: Ø400 mm (diameter) x 167 mm (height).
  - Side view: 200 mm (width) x 167 mm (height).
- CARAVELLE 600 UNDER COUNTER BASIN:**
  - Top view: 600 mm (width) x 425 mm (depth).
  - Side view: 126 mm (width) x 215 mm (height).
- LIANO UNDER COUNTER BASIN:**
  - Top view: 430 mm (width) x 430 mm (depth).
  - Side view: 175 mm (height) x 86 mm (width).

The image contains two sets of technical drawings for sinks. The left set shows a pedestal sink with a top view (450x270), a side view (height 190), and a detailed view of the pedestal base (height 195, diameter 40mm). The right set shows a freestanding sink with a top view (450x330), a side view (height 160), and a detailed view of the P-trap and shroud (height 195, width 150). Both sets include a note about the importance of accurate P-trap set out for the shroud.

**Technical Drawing Details:**

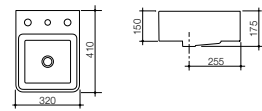

- Left Set (Pedestal Sink):**
  - Top View: 450 (width) x 270 (depth).
  - Side View: 190 (height).
  - Detail View: 195 (height), 40mm (diameter), 155 (width), 195 (height).
  - Labels: Pedestal Set-Out, Finished Wall, 40mm DWV - PVC or Copper Pipe, Basin Waste Outlet, Centre of Basin, Pedestal.
- Right Set (Freestanding Sink):**
  - Top View: 450 (width) x 330 (depth).
  - Side View: 160 (height).
  - Detail View: 195 (height), 150 (width).
  - Labels: P-trap set out for shroud, Important: Accurate P-trap set out for shroud is essential, 50 (height), P-Trap, Basin waste, outlet, Finished wall, Centre of basin, 195 Recommended.
